Activities

The PMRC hosts a Lapidary Workshop and a rock hunting Field Trip in which children can participate. The Lapidary Workshop and Field Trip entail the following activities:

a. Lapidary Workshop: The Lapidary Workshop takes place at the Kyle Centre. The focus of this workshop is cutting and polishing stone to create cabochons for display and jewellery purposes. Participants have access to certain lapidary equipment, including but not limited to silicon carbide and diamond grinding and polishing wheels, in addition to trim and slab saws. The potential risks include the risk of injury from: use of lapidary equipment, including but not limited to cuts, scrapes, electrocution, and burns caused by this equipment; flying rocks or other debris; and inhalation of fumes, dust, or other toxic material.

b. Field Trip: The Field Trip takes place outdoors at sites across the Lower Mainland and Fraser Valley. The focus of this Field Trip is to gather rocks that can be used to create cabochons and jewellery. Participants may encounter dangerous terrain including canyons and steep slopes. The potential risks include the risk of injury from: falling rocks or other debris; slips or falls; and dangerous wildlife.

(collectively, the “Activities”)

I acknowledge that engaging in Activities with PMRC requires a degree of skill and knowledge different than regular activities at school and therefore my child has additional responsibilities as a participant in the Lapidary Workshop and/or Field Trip to act prudently and carefully. Certain hazards and risks are inherent to the Activities and eliminating the hazards and risks would compromise the unique character of the experience. These inherent hazards and risks can result in loss, or damage to equipment, personal property, or injury, illness or death.

In addition to the hazards and risks described above, the hazards and risks of the Activities may also include, but are not limited to, the following: acts of other participants (including from the failure of other participants to follow instructions or obey safety regulations), manufacturer defects or malfunctions in equipment, and weather conditions
